AFFAIRS OF FINANCE.

What Is Going On In the Business World.

NATIONAL BANKS SUSPEND.

The Louisville City Closes Its Doors; Also, One of the Largest in the Northwest—A Cheering Report Comes From Washington—Silver Refused at the United States Subtreasury in Chicago—Closed Banks Resume—Failures and Other Financial News.

LOUISVILLE, July 25.—The Louisville City National bank suspended payment at 1:15 o'clock yesterday. Its suspension was expected, as it had been weak for some time. William Pope, the teller of this bank, walked off one Saturday evening in March, 1889, with \$60,000 buttoned under his overcoat. He was accompanied by a prominent young society man, and though rewards were offered by the bank and the bondsmen they have never been heard from.

The City National has never recovered from this and other small losses that in the aggregate were considerable. It had a capital stock of \$400,000, a surplus of \$80,000 and undivided profits of \$20,000. Its individual deposits were over \$222,000 and yesterday its cash was reduced to \$14,000. Other banks declined to advance currency believing that the suspension could not be long averted.

The bank owes comparatively little outside of its deposits and about \$100,000 balance to other banks and has real estate valued at \$59,000. Its bills receivable amount \$865,000. The immediate cause of the failure was the heavy withdrawal of the country banks' balance. It is not likely that the City National will resume business.

The Kentucky National bank, which suspended Saturday, is in the hands of a bank examiner, with little prospect of resuming business.

The Kentucky Jeans company, with liabilities of \$50,000, assigned yesterday.

The financial situation is nervous, without any symptoms yet of a panic.

Strongest in the Northwest Closed.

TACOMA, July 25.—The Tacoma National bank, one of the strongest in the northwest, suspended. This bank has been assisting other banks in the city for the past six months.

Failed to Open.

CONNERSVILLE, Ind., July 25.—The Citizens' bank, owned by ex-United States Treasurer J. N. Huston, did not open on account of the stringency of the money market. All depositors will be paid in full. What effect the failure will have on business can not be foretold.

Brighter at Portsmouth.

PORTSMOUTH, O., July 25.—The Citizens' Savings bank, after being closed for four weeks, open its doors, 96 per cent of the creditors, representing \$340,000, and 1,000 depositors agreeing to raise the assignment. Old depositors are flocking in, and confidence is returning in business circles.

NEW YORK BANKS.

Calls For Loans Not as Urgent as They Have Been.

NEW YORK, July 25.—The banks reported the financial situation as fairly easy, and to some extent better, inasmuch as the demands for accommodations were light.

From the demands received from Ohio and some other places for rediscounts, it is believed that the shipments of currency to those sections this week will be heavy. In many instances during the last few days gold has been shipped to the country instead of currency, and more will probably be sent. The banks asking for the accommodation are providing themselves against runs as the wave of distrust sweeps over their localities.

The shipments of currency by the banks to the interior amounted to \$1,500,000. Of this sum \$400,000 was obtained at the subtreasury in exchange for large bills. Most of the money went to Cincinnati and Indianapolis. Some money went to Chicago and St. Louis.

BRIGHTER SKIES

Overhang the Financial World This Week.

WASHINGTON, July 25.—As viewed at the treasury department the week begins with brighter financial prospects. A number of the recently failed banks are taking the necessary steps to resume and Comptroller Eckels is lending them all the aid possible. He was notified yesterday the failed First National bank of Kendallville, Ind., and the failed Northern National bank of Big Rapids, Mich., would probably resume business this week.

The First National bank of Santa Anna, Cal., which resumed business on Saturday after a short suspension, received in deposits \$12,000, while the withdrawal amounted to only \$6,000. This is regarded here as an evidence that confidence is being gradually restored on the Pacific coast.

SILVER PURCHASES.

The Full Quota Will Not Be Bought This Month.

WASHINGTON, July 25.—Acting Mint Director Preston, in response to his counter offer, purchased 50,000 ounces of silver at \$0.6960 cents per ounce. There is no expectation of purchasing the full quota of 4,500,000 ounces of silver per month. Mr. Preston states the department, if it fails to purchase the full quota this month, will not make

up the deficiency next month. That is if only 2,500,000 ounces of silver are purchased this month the department will not purchase the 2,000,000 ounces short this month and the 4,500,000 ounces next month, the usual monthly purchase.

Each month's purchase will stand by itself and thus it may happen that at the end of the fiscal year the aggregate purchases, instead of being \$4,000,000 ounces may be only half that amount. This is the construction placed upon the Sherman law as to the requirements of silver purchases by Secretary Carlisle. As a consequence of short purchases, the amount of coin or Sherman notes issued against the silver bullion purchased under the law, will, of course be correspondingly less.

TOO MUCH ON HAND.

Silver Refused at the Subtreasury at Chicago.

CHICAGO, July 25.—A notice was posted yesterday in the United States subtreasury to the effect that silver would not be received. During the day many employees of the banks brought in sacks of the white metal to get currency in exchange, but they had to shoulder their loads and go again, as they came. There is more silver lying around uncounted behind the rails of the subtreasury than the force can handle. On every shelf and in piles on the floor in sacks filled with dollars and other coins, stacked up until there is hardly room to get about.

"We are unable to handle the big amount of silver we have on hand," said one of the officials, "and until it can be all counted and checked up we will not receive any more over the counter. For some time past great quantities of silver have been brought here by the banks to be exchanged for currency until the amount has become greater than we can handle, and we have had to call a temporary halt. This is all there is to the matter."

In a Receiver's Hands.

SYRACUSE, July 25.—The extensive manufacturing firm of Bradley & Company went into a receivership. The firm manufactured trip hammers, wagons and fancy carriages and filters. The buildings and plant are valued at \$500,000. The liabilities are about \$350,000. The judge issued an order allowing the receiver to continue the manufacture and sale of the stock on hand.

Voluntarily Assigned.

BALTIMORE, July 25.—The Southern Electric company, one of the big enterprises of this city, made a voluntary assignment to Merrill N. Packard. Failure to collect overdue accounts made it impossible for the company to meet its obligations. The assets of the concern are estimated at \$175,000; liabilities, \$100,000. Mr. Packard filed a bond for \$900,000.

In the Hands of a Sheriff.

CHICAGO, July 25.—Judgment was secured by the Continental National bank against Parkhurst & Wilkinson, iron merchants, for \$87,175.15. The sheriff took possession of the firm's business. The assets are estimated at \$1,000,000. It is believed the concern will be able to resume business as soon as the financial stringency relaxes.

HANLAN DEFEATED.

Gaudaur Wins the Championship Boat Race at Orillia, Ont.

ORILLIA, July 25.—The Hanlan-Gaudaur championship boat race here yesterday attracted another large crowd. Betting during the day was mostly even, a little money changing hands at odds in favor of Gaudaur. Both men were in splendid condition. A stiff breeze prevailed all day and made the course rough at the turn.

The start was made at 6:04. Hanlan shot to the front like a flash and was soon leading by a full boat's length. Both men were rowing about 84 strokes a minute.

Hanlan kept in front for the first half mile where Gaudaur reduced the lead to a half boat's length, and soon spurted by his opponent. When the turn was reached Gaudaur was leading by a boat length with Hanlan apparently out of it.

Gaudaur increased his lead until within a quarter of a mile from the finish, where he stopped rowing and waved his hand in response to the cheers of his friends and backers along the shore. He then made a magnificent spurt, and crossed the line an easy winner by seven lengths in 19:58. Hanlan finished 12 seconds behind.

Hanlan has notified the stockholders not to pay over the stake money, claiming that the course was changed, causing his defeat.

Such-Wanted Man Caught.

NEW YORK, July 25.—Giovanni Cavaelero, alias Juan Andretti, alias Juan Daodati, who is believed to be a celebrated European criminal, "wanted" in almost every big city in France, Italy and Spain, was arrested Saturday evening in this city. A stranger informed a policeman of the man's character when the officer laughingly told the informer to go punch the fellow and he would arrest both. The informer did as directed, and both men were taken into custody, one proving, as is believed, to be Cavaelero.

Killed the Whole Family.

TEXARKANA, Ark., July 25.—Allen E. Jones, living near here, attempted to kill his wife and three children, and then committed suicide by hanging. The family will die. It is supposed that the murders were committed while Jones was temporarily insane.

Destroyed by Lightning.

BOSTON, July 25.—The bonnet wire covering factory of Moses F. Clark & Company, at Medfield, Mass., was struck by lightning and together with its contents was destroyed by fire. Loss, \$20,000; insurance, \$12,000.

WEEK AT THE FAIR.

It Is to Be Devoted to Several Events.

INDIANA EDITORS AS VISITORS.

Special Arrangements Have Been Made to Entertain Them—Chicago's Poor Children to Take a Peep at the Show—Sunday Closing Question to Be Revived.

CHICAGO, July 25.—The Indiana editors visited the fair in a body yesterday. Special arrangements have been made to give them a week of enjoyment. From their downtown headquarters the editors proceeded to the Vanburen street pier at 10 o'clock and embarked on the huge whaleboat steamer for Jackson park.

The Indiana state building, beautifully decorated, was made their headquarters at the fair, and at 2 p. m. a reunion was held and Executive Commissioner B. L. Havens delivered an address of welcome. Gentlemen of the association responded and speech-making was indulged in for an hour.

Lectures.

At 10 o'clock a large audience, including a number of foreign commissioners, assembled at the woman's building to hear Mrs. Roher's lecture on the methods of preparing Indian corn for food. Professor D. C. Taft lectured on mining at the agricultural assembly hall, and later J. A. Galloway of Glasgow lectured on "Education of Girls and Women in Glasgow."

Interesting Drills.

An interesting drill by the United States lifesaving corps took place off the government plaza, and was watched intently by a large concourse of people.

Musical Features.

The list of the exposition concerts for the present week has many features of both an entertaining and instructive nature. The popular orchestral concerts were resumed and are to be given on such days during the week as the rehearsals and other concerts will permit.

Right in the Swim.

Professor Albert of Sweden, the great swimmer, begins his public exhibitions at the fair this week. He will have a tower 30 high erected in the corner of the basin, which will be dredged to a depth of 15 feet at the foot of the tower.

Turnerbund Day.

Wednesday, July 26, will be Turnerbund day, and will be fitly celebrated by the members of that great association. The North American Turnerbund consists of 320 societies, with a membership of 50,000. Three thousand active Turners from all parts of the country have already accepted invitations to be present, and will take part in the exercises of the day.

Poor Children's Day.

Next Thursday will be "poor children's day" at the fair. The waifs will be given free admission to the fair, and will have to make false entry on the property books. That closed my efforts to get charge of the revolver."

The police department officials are making an effort to secure the weapon and add it to the museum of such articles already collected and on exhibition.

GUITEAU'S REVOLVER.

The Whereabouts of the Deadly Weapon at Present Unknown.

WASHINGTON, July 25.—The whereabouts of the pistol with which Guiteau shot President Garfield, which has disappeared, is under discussion. Mr. Donovan, who was property clerk of the police department at the time of the tragedy, has made a statement of his efforts to recover the weapon from Colonel George B. Corkhill, the district attorney, who carried it away from the state house after Guiteau's arrest, in which he says:

"I called on Colonel Corkhill the following day and several times afterward, requesting and demanding that the revolver be placed in my charge, but the colonel stated that it would remain in his safe until after the trial, and that then it would be returned to the police department. After the trial and conviction of the assassin I resumed my efforts to have the revolver placed where it should be, but without success. Colonel Corkhill stated that for the present it would remain in his office."

"Finding that the district attorney would not return the revolver, I made a statement of all the facts and submitted it to Commissioner Thomas P. Morgan, that gentleman being then in charge of the police department, with the request that such action be taken as would compel compliance with the law. I understand that my communication was referred to the chief justice of the district supreme court.

"About a week after I received an order of the court to turn over the revolver to Colonel Corkhill, and on the back of the order was Colonel Corkhill's receipt for the same. I respectfully returned the order to the court, not complied with, for the reason that I was unable to do so, as the property mentioned was not then, nor never had been in my custody."

"I also notified Colonel Corkhill that I had returned his receipt to the court, as I could not accept a receipt for property never in my custody, as to do so I would have to make false entry on the property books. That closed my efforts to get charge of the revolver."

The police department officials are making an effort to secure the weapon and add it to the museum of such articles already collected and on exhibition.

DENOUNCED BY A JUDGE.

The South Carolina Liquor Law an Abomination.

COLUMBIA, S. C., July 25.—Judge Hudson's decision refusing an order of search and seizure in the case of J. M. James, a Darlington saloonkeeper, reported for selling liquor, provoked the administration's local organ to say that the judge ought to be impeached and to characterize him as the liquor men's best friend.

In discussing the section of the dispensary act authorizing an officer to search a man's premises and confiscate his personal property, Judge Hudson says:

"If the construction of the act condoned by the plaintiff be correct, or if the act be enforced as its terms demand, then no citizen of the land, high or low, in city, town or county, of whatever calling, trade or business, is safe from unreasonable searches or seizures; and if, perchance, he shall keep wines or liquors in his place of business or residence for private use of himself, family and friends, the liquors and all personal property are liable to seizure, to abide the results of the indictment or an action for abating nuisance. Each and every citizen is thus placed at the mercy of the envy, malice and revenge of secret spy or hostile neighbor. The dangerous consequences of such license and immunity given to the malicious prosecutor are too apparent to call for comment."

ASSAULTED THE PROFESSOR.

GREENCASTLE, Ind., July 25.—Professor Langdon of Depauw university was assaulted by Frank O'Hair, one of the students who failed of graduation because of irregularity in their examination. The professor was knocked down on the street near his residence, after being accused by O'Hair of circulating lying statements in reference to the transaction. The professor's assailant was accompanied by another student, who claims that the assault was in no way premeditated.

Distillery Burned.

LEXINGTON, Ky., July 25.—J. W. Masters' distillery was burned at Valley View, Ky. Loss, \$5,000; insurance, \$2,500. The fire is supposed to be the work of an incendiary. A very peculiar incident is the fact that Masters had just returned from a campmeeting where he heard Sam Jones pronounce an eternal curse against whisky and the makers of it. None of the warehouses were near the distillery and were not touched by the fire.

The Boat Leaked.

GREAT BARRINGTON, Mass., July 25.—Augustus Hamlin, his wife, Mary, Eugene Peiffer and Louis Victor and Rosa Labbe were rowing on Harmon's pond. The boat leaked. All crowded to one side and Peiffer jumped overboard. Mrs. Hamlin jumped out and clasped her arms around his neck, and both sank at once. Hamlin fell off the boat and sank like a rock. The others were saved by clinging to the boat.

Stricken With Death While Bathing.

BRAZIL, Ind., July 25.—Edward Trout, 25 years old, living near Poland, went to Eel river, near Old Hill, for a bath. While standing on the bank undressing he pitched forward into the water, where he was drowned. It is thought that he was seized of heart disease. His body was recovered. He was a prominent and wealthy young farmer, with a wife and several children.

AN OLD SOLDIER MISSING.

POMEROY, O., July 25.—Frank Baker,

TURKISH OUTRAGE.

An American Lady Missionary Assaulted.

BRUTALLY BEATEN AND BRUISED

Her Assailant an Unknown Man and the Weapon Used Was a Heavy Club—The Affair Reported to the State Department at Washington.

NEW YORK, July 25.—Letters just received by the Presbyterian board of foreign missions in this city, contains news of an unprovoked attack upon Miss Anna Melton, an American missionary, who was stationed at the time of the outrage in a little village among the Nestorian mountains in Turkey. Miss Melton escaped with her life, but was mercilessly beaten and bruised.

The letters containing the story of the assault are dated from Amadia, Turkey, June 14 last. A little more than a week before that date, the Rev. E. W. McDowell, with his family, in company of Miss Melton, left Mosul, in West Persia, to go to Amadia, Turkey. Having reached their destination in safety Miss Melton proposed to continue on to the mountain village of Duree, some miles away. She went unattended save by her servant and a native preacher.

On the night of her arrival, she pitched her tent on the roof of a house in the village, as is the custom in that country. The preacher slept on the roof, about 10 feet from her tent and the members of the family owning the house also occupied places not far away.

In the middle of the night she was awakened by the appearance of a man in her tent. The intruder was armed with a heavy stick, with which he began to strike the helpless woman, who screamed loudly for help. No one came to her aid, however, and she was compelled to defend herself single-handed. In some way she was able to break away from her assailant, and ran bleeding from the tent. The man followed, but in the darkness missed his footing and fell to the ground.

No trace could Miss Melton find of the preacher or of the others who occupied the roof with her. They had all fled in terror. She was brutally cut about the head and body.

THE NEW YORK WORLD is ferninst silver. It says: "We have tried free coinage, demonetization, restricted but liberal coinage and forced Government purchases of silver, and under every condition silver went down with increased production and greater ease of production. Why has not experience settled the matter?"

OUT of 1,000 people in Michigan who expressed themselves on the subject, 997 attributed the present financial troubles to the Sherman law. And they are all Republicans at that. Still, most Republicans, especially those in Ohio, tell us that Mr. Sherman is "the great financier of the age." The country doesn't want any more of his financing.

MURAT HALSTEAD is again raving and ranting about the South. He rehashes over a column of his old chestnuts in Monday's COMMERCIAL GAZETTE. Yes the South is "to the front" just now. It's the most prosperous section of the country, probably, and its prosperity is increasing year after year. But Mr. Halstead should not become alarmed. The South's prosperity is benefiting the whole country.

THE COLORADO SILVER CRANKS talk like the white metal is the only thing they produce out there. And yet, according to the last census, the entire annual metal output of Colorado was only \$50,000,000, while the farm products already amount to \$60,000,000 a year, its cattle product to \$34,000,000, its coal product to \$55,000,000 and its manufacturing product to \$70,000,000, though but a tenth of the land is under cultivation. The mine-owners need to broaden their horizon, remarks the NEW YORK WORLD.

CHAUNCEY M. DEPEW is one of the few Republicans who have not become "calamity howlers." He says: "The conclusions, therefore, at which I arrive are that the business of the country is on an unusually sound financial basis, and there is everything in the present appearance of our crops and other sources of national wealth to show that our prosperity is based on good foundations." This is quite refreshing contrasted with the ravings and rantings of Republican editors.

THE HIGH-TARIFFITES are centering their forces in Ohio for the present campaign. The American Protective Tariff League is working hard for the re-election of Governor William McKinley, Jr. The American Economist, the official organ of the League, recently addressed to the manufacturers, legislators and business men generally, who owe their incomes to the protective system, a letter asking, "Why should William McKinley be re-elected?" The Democrats will tell the people over there why Mr. McKinley should not be re-elected.

Summer Pruning of Grapes.

To sit under one's vine is to buy one's grapes, as where there is growth of wood there is lack of fruit. For best return in fruit the young shoots must be kept pinched back to the joint beyond the bunches, four or five shoots from below being allowed to grow for bearing next year's clusters. These in turn should be pinched back when a good growth is attained, so the wood may be well ripened, and get a greater profusion of leaves for shading the fruit. With grapes and berries, it is the wood grown this year that will bear the fruit next season.

Polish Language to Be Restored.

BERLIN, July 22.—The Prussian government has ordered an inquiry to be made into the matter of deciding upon the best means for the reintroduction of the Polish language into the educational system of those parts of the old kingdom of Poland which are united with Prussia. The laws banishing the Polish language from the Polish schools were framed by Bismarck, and, by abolishing them, the kaiser once more shows his uncompromising attitude toward the ex-chancellor. The Poles earned his majesty's good graces by their friendly attitude toward the military bill.

Barking With the Dogs.

BELLEFONTE, O., July 25.—William Bryant, residing here, was bitten at Bloom Center, near here, 10 days ago. The dog has since shown signs of rabies. The police had to kill all the dogs in the neighborhood. When they barked he would go into spasms and bark also. He has all the symptoms of hydrophobia, and the greatest fears are entertained by his physicians.

Wants to Become a Citizen.

COLUMBUS, O., July 25.—Governor McKinley has received a specimen of the work of Egyptian artists and artisans from Isaac Ben Yokar, who is now in the Cairo Street at the world's fair. It is a framed picture representing an Egyptian school. In his letter Ben Yokar says he has applied for naturalization papers, and intends to become a citizen of Ohio.

Probably Perished.

FINDLAY, O., July 25.—Ex-Marsh Luther M. Myers is missing. He was a guard on the world's fair grounds and has not been heard from since the fire. It is known that he drew his pay on the day of the fire. Some of his friends think that he perished in the flames. He has a wife and three children in this city.

Endeavor will be made to make this fete attractive in every respect. A cordial invitation is extended to all to attend. The proceeds are to go for the benefit of the church.

A HOPKINSVILLE lady has a rose bush which has been bearing large red roses for many years. This year, strange to relate, the roses were about evenly divided between white and red. She was surprised at this, and thinking perhaps that the bush had been grafted, made a close, minute examination, but could find no evidence of such an operation. The mystery is still unsolved.

MACHINES for making shoes have been so highly developed that recently a pair of shoes was made in Lynn, Mass., actually from beginning to end, including the sewing on of the buttons and packing of the pair in a box, in the almost incredibly short time of less than sixteen minutes.

WHAT can be more pleasant after these warm days than a delightful evening ride on the steamer Lorraine? She leaves the wharf on Tuesdays and Fridays at 7 p. m., standard time, making the run up and down in front of city—a ride of over seven miles for the sum of 10 cents. Go down this evening and try one.

GRANITE is the lowest rock in the earth's crust; it is the bed-rock of the world. It shows no evidence of animal or vegetable life. It is from two to ten times as thick as the united thickness of all other rocks. It is the parent rock from which all other other rocks have been directly or indirectly derived, says the New York World.

MAYSVILLE COMMANDERY No. 10 conferred the illustrious order of the Red Cross upon Messrs. Elwood Kenner, A. P. McCoy, R. E. Lee Wilson and John L. Sowards, all of Greenup, last night. Sir Knight Ben E. Roe, County Attorney of Greenup, came down with the party. The order of K. T. will be conferred to-night, commencing at 7:30 o'clock.

A FAIR company has been organized at Aberdeen and the following officers chosen: W. A. Rist, President; Dr. T. Stevenson, Vice President; W. H. Clark, Secretary; Assistant Secretary, W. S. Griffith; W. S. Sibbald, Treasurer. Board of Directors: H. L. P. Cooper, Ezekiel Scott, Daniel Pence, S. B. Brookover, Cyrus Bradford, Cooper Fulton, Lafe Jamison, W. G. Hutsell, Geo. Brookover. A meeting of the Board is called for to-night, when arrangements will be made and time set for the holding of the fair.

DR. J. B. MCCLAIN, who was two weeks ago appointed postmaster, at Sardinia, O., and would have taken office next Monday, has received notice from the department that another man has been appointed, and his bond for \$600 has been returned. When McClain's appointment was made known, the people protested and a petition signed by over 300 was forwarded. Peter Schneider, a well-known citizen, was the other applicant, and will likely be appointed. McClain held the office under Cleveland's former administration.

By a series of calculations it has been demonstrated that it costs a railroad 10 cents to stop a locomotive and 4 cents for each stop of a passenger car. It often happens that a passenger does not make any move to leave the train until the order is given to go ahead, and a train must be brought to a stop again to let the slow-going passenger off. This little incident costs the railroad company 16 or 20 cents, sometimes as much as the tardy passenger has paid. This is one of the little leaks that a railroad company undertakes to guard against, and the number of coaches to a train is limited to save expense of stoppage.

THE Danville fair this year—beginning August 1 and continuing four days—will be one of the best in the Blue Grass. Besides three trotting races each day there will be one grand \$300 premium for sweepstakes saddle stallions, one \$100 premium for saddle stallions, one \$100 premium for saddle mares and geldings. The big premium closed with twenty-one entries. The Cincinnati Southern Railroad will run excursion trains to the fair at one fare for the round trip, every day except the first, and the Louisville Southern sell round trip tickets from all stations at the same rate. The BULLETIN acknowledges the receipt of complimentary.

ATTENTION, Sir Knights. Called meeting of Maysville Commandery No. 10 to-night at 7:30 o'clock. Order of K. T. will be conferred. Visiting fraters courteously invited.

THE LADIES.

THE pleasant effect and perfect safety with which ladies may use the California liquid laxative, Syrup of Figs, under all conditions, makes it their favorite remedy. To get the true and genuine article, look for the name of the California Fig Syrup Co., printed near the bottom of the package.

RAILROAD MAPS FOR FREE DISTRIBUTION.

A few months ago Hon. Charles B. Poyntz, one of the State Railroad Commissioners, sent a lot of maps of Kentucky to this office for distribution. The supply was exhausted soon after the paper containing the notice was issued.

Mr. Poyntz was written to for another installment of the maps, but the letter was mislaid at his residence and he knew nothing of it until it was found a few days since.

Through his kindness a fresh supply of the maps was received this morning. They are for free distribution. Call at the BULLETIN office.

COMMISSIONER POYNTZ.

The Frankfort correspondent of the Covington Commonwealth says: "The recently issued report of the Railroad Commissioners contains more statistics and information pertaining to railroads than any that has heretofore been published in Kentucky. It is said that Commissioner Charles Poyntz did a vast amount of labor on these statistics, and is as proud of them as a peacock. By the way, Commissioner Poyntz is the expert mathematician on the board. His brain moves like clock work, and then his legs are a little like clock legs, too, in that they are not particularly noted for transporting his brain about from place to place with any great degree of celerity. The Commissioners have received a great many letters of commendation since their first report was given to the public."

DR. APPLEMAN,

SPECIALIST!

NEW METHOD AND TREATMENT IN.....

Nervous, Chronic, Throat and Catarrhal Diseases.

Late from New York City, now permanently located at Louisville, Ky.

WILL MAKE HIS NEXT VISIT TO

MAYSVILLE, AUGUST 17th and 18th,

TWO DAYS, returning monthly thereafter—parlors at the CENTRAL HOTEL. From Thursday at 10 a. m. till Friday at 3:30 p. m.

DR. APPLEMAN'S NEW SYSTEM.

So many thousands are already acquainted with Dr. Appleman's mode of treatment in this country, it is only necessary to say by this method an equilibrium of the vital powers is at once established, and an equalization of the circulation maintained. Thus nature is enabled to throw off the effete matter. Medicine will act like a charm and health at once ensue.

Dr. Appleman's experience in the Great Medical Schools and Hospitals of New York enables him to treat all Chronic and Catarrhal Diseases understandingly, and with never varying success. He does not claim to cure everything like some physicians. Bear this in mind. Call and see for yourself. He does not practice deception. Dr. Appleman uses nothing but the latest and most improved treatment in foreign hospitals—nearly all medicines new.

The Greatest of all Gifts—The Power of Diagnosing Diseases.

Dr. Appleman knows he is one of the Greatest Diagnosticians in the world. He has a national reputation for diagnosing the most complicated diseases.

By his keen perception and intuition he is enabled to fathom the most complicated disease and reveal to the sick one the true fountain and cause of their suffering, where other physicians have failed and were groping in darkness.

By his correct diagnosis of each and every case, Dr. Appleman is enabled to cure hundreds of diseases given up by the most eminent physicians in the country.

CATARRH.—Dr. Appleman can absolutely and permanently cure any case of Catarrh that ever existed.

BUT ONE GROVER CLEVELAND.

The President's Wife Wants Her Husband's Glory Undivided.

WASHINGTON, July 25.—If the Clevelanders come back from Gray Gables with four in the family, as many believe will happen, there will be no second Grover in the world at the end of the summer. Mrs. Cleveland is quoted by several of her friends in Washington as having said to them that she would never name a child of hers after her husband. "There shall be no second Grover Cleveland," she has said. "There was only one George Washington, only one Abraham Lincoln. There shall be only one Grover Cleveland."

It is a fact worthy of note that comparatively few men in public life have sons who are named after them. The name of James G. Blaine has descended through two generations. Yet it is easily believed that Mr. Blaine would have been pleased if the unhappiness of the scandal growing out of his son's marriage and divorce had not been so intimately associated with the name of James G. Blaine.

POISON ON THE ROOF.

Singular Cause of Death of Two Members of a Family.

HALIFAX, July 25.—The lighthouse keeper at Tiverton, N. S., and his family are victims of lead poisoning. The wife and daughter have died in terrible agony and convulsions. The water used for domestic purposes is conveyed from the roof into a tank in the cellar. During the past few years the roof has been more than once covered with white paint, and through this they have contracted the disease which has carried off two and threatened the whole family.

Powder House Blown Up.

HUNTINGTON, Ind., July 25.—Schaeffer & Schaeffer's powder house exploded at 3 o'clock. Homer Householder and Hugh Harvey were shooting with a rifle, when a bullet entered a window. Both men were blown clear across the Little river and their bodies torn to pieces. Houses were wrecked all around and several persons were injured.

CONDENSED NEWS.

Short Items From Various Parts of the Country.

Great destruction by forest fires is reported in Wyoming.

The outlook among the New England cotton factories is discouraging.

James J. Corbett says he will not fight at Robt, but at the Coney Island Athletic club.

President Cleveland is dividing his time about equally between fishing and working on his message.

Ferdinand Freiher Von Baur, Austrian Hungarian minister of war, who was stricken with apoplexy, died.

Andrew Spear, a negro living in Lima, O., shot his wife dead for talking. He then decamped with her body and has not been found.

Austin Davis, a millionaire of Kansas City, has been divorced from his wife, who refused to move her home from Boston to that of her husband.

The New Jersey metal refining works, at Elizabethport, are closed on account of general trade depression. Two hundred employees are laid off. The company expects to resume operations Sept. 1.

Secretary Gresham has left for Glen Summit, Pa., where he will spend a few days. Mr. Carlisle is now the sole representative of the cabinet in Washington.

Customs receipts at the national treasury so far in July are nearly \$2,000,000 less than during the corresponding period last year. Internal revenue receipts show a small increase.

Colonel J. F. W. Hughes, formerly of Tennessee, is to be court-martialed by the Kansas authorities because he refused to obey the revolutionary order of the Populist governor and storm the state capitol when the Republican members of the legislature held it last January.

Four Found Guilty.

WASHINGTON, July 25.—The grand jury found a true bill against Colonel Frederick C. Ainsworth, chief of the record and pension division of the war department; George W. Dant, the contractor employed to make the excavation for the electric light plant; William E. Covert, superintendent, and Francis Sasse, engineer of the building, holding them responsible for the old Ford's theater disaster of June 9 last, in which 23 persons lost their lives and a large number of others were injured.

Caused by Gasoline.

BRAZIL, Ind., July 25.—There was a serious fire at Staunton, west of here. F. J. Lanham started a fire in a gasoline stove, and the pipe began leaking. The flames immediately filled the room, enveloping Mr. Lanham, who was terribly burned about the hands, arms, face and head. The house and its contents, together with the household goods of the widow Brill, which had been stored therein, were entirely destroyed. The loss is \$1,500. There is \$425 insurance in the Ohio Farmers.

Charged With Highway Robbery.

LOGANSPORT, Ind., July 25.—Three well known young men were arrested last evening for highway robbery committed upon Ed Fletcher, a tinner. They are Lon Saxon, W. T. Vigus and Eck Burk. Saxon attempted to escape, but was run down by the police superintendent on horseback. All are now in jail, pending a preliminary hearing.

Drowned in a Gravel Pit.

MARION, Ind., July 25.—Charles Christman, a lad of 17, was drowned while bathing in a disused gravel pit now filled with water, seven miles north of here. While floating on a board he fell off, and being unable to swim he sank from view. His companions made heroic efforts to rescue him.

A Bridge Goes a Second Time.

HALIFAX, July 25.—A railway bridge half a mile long connects the Inter-colonial railway with the Dartmouth branch on the upper side of the harbor. There were high tides Sunday and more than half of the western portion fell. This is a second collapse of the bridge. It went down two years ago during a windstorm.

Indications.

Fair weather, except local showers on the lakes and in western Pennsylvania; south winds; warmer, except in extreme southwestern Ohio.

KNOWLEDGE

Brings comfort and improvement and tends to personal enjoyment when rightly used. The many, who live better than others and enjoy life more, with less expenditure, by more promptly adapting the world's best products to the needs of physical being, will attest the value to health of the pure liquid laxative principles embraced in the remedy, Syrup of Figs.

Its excellence is due to its presenting in the form most acceptable and pleasant to the taste, the refreshing and truly beneficial properties of a perfect laxative; effectually cleansing the system, dispelling colds, headaches and fevers and permanently curing constipation. It has given satisfaction to millions and met with the approval of the medical profession, because it acts on the Kidneys, Liver and Bowels without weakening them and it is perfectly free from every objectionable substance.

Syrup of Figs is for sale by all drugists in 50c and \$1 bottles, but it is manufactured by the California Fig Syrup Co., only, whose name is printed on every package, also the name, Syrup of Figs, and being well informed, you will not accept any substitute if offered.

Complete Manhood
and how to attain it.

At last a medical work that tells the causes, describes the effects, points the remedy. This is scientifically the most valuable, artistically the most beautiful, medical book that has appeared for years; 96 pages, every page bearing a half-ton illustration in tints. Some of the subjects treated are Nervous Debility, Impotency, Sterility, Development, Varietate, The Husband, The Home, Marriage, etc. Every person who would know the grand truths, the plain facts, the old secrets and the new discoveries of medical science as applied to married life, who would stand for past follies and avoid future pitfalls, should write for this little book. It will be sent free, under seal. Address the publishers.
